***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The main reason for allowance of claims 1-38 is that the prior art does not show or make obvious a method or apparatus for detecting cracks in a honeycomb structure as shown in claims 1 and 20. Applicant discloses a method and apparatus for detecting cracks in a honeycomb structure comprising the steps of applying a heavy impact load to the honeycomb structure in order to make a powdery substance fall off the cracked portions and detecting the cracks based on the powdery substance. This limitation in combination with other limitations of the claims renders this case allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
